

Stream Crossing Programmatic Notification Form

Lead Agency:

This form identifies key elements of the proposed action, but must be accompanied by sufficient additional documentation to ensure that the proposed action fits all applicable design criteria, and that all effects to ESA-listed species and their habitats are within the range of effects considered in the biological opinion guiding this notification process for use by the relevant agency, USACE, USFWS, or FEMA.

ESA-Listed
Species Potential:

IPaC Species List Attached

Atlantic Salmon

Atlantic Salmon Critical Habitat

Upstream Salmon Habitat Miles:

Salmon Habitat Units Gained: *(1 unit = 100 m²):*

Fish Removal

Conducted by:

*(Due to likely presence
of Atlantic salmon)*

Canada Lynx

Northern Long Eared Bat

Canada Lynx Critical Habitat

Tree Removal Area (acres):

(< 10 trees 3" dbh = 0.1)

Rusty Patched Bumble Bee

Small Whorled Pogonia

Habitat Use
Description:

Structure Width: *(feet)*

Reference Bankfull Width: *(feet)*

Structure Capacity:

Cross-Sectional Area: *(sq. feet)*

Design Discharge: *(cfs)*

Headwater Ratio: *(< 0.8)*

Stream Slope:

%

Reference Slope:

%

Bed Slope:

%

Structure Alignment: *(to stream)*

Embedment:

(for closed culverts only; decimal feet)

Substrate Type: *(dominant only)*

Drainage Area: *(sq. miles)*
