

# North Atlantic Landscape Conservation Cooperative

## North Atlantic LCC coordination with Canadian partners:

- Steering Committee representation with Canadian Wildlife Service by Atlantic Regional Director Doug Bliss and AFWA Canadian Liaison Dean Smith;
- Technical Committee representation by Canadian Wildlife Service Landscape Conservation Coordinator Karel Allard;
- Participation by LCC Coordinator Andrew Milliken in Canadian Wildlife Directors Landscape Conservation Workshop in Prince Edward Island May 2011. Meetings of LCC staff with Provincial Wildlife Directors from Nova Scotia, New Brunswick, Prince Edward Island and Quebec at that meeting;
- Participation by LCC Staff and Partners in The Nature Conservancy/Nature Conservancy Canada workshops on the bilateral Northern Appalachian Acadia Ecoregional plan in Crawford Notch, New Hampshire and Montreal, Quebec;
- Identification of consistent data layers to be developed across the border into Canada now underway building on existing data developed by The Nature Conservancy, Nature Conservancy Canada related to geology, elevation, landforms, ecological land units, climate, connectivity, secured lands, and roads;
- Identification of opportunities for bilateral conservation planning efforts in the northern forest and Gulf of Maine now underway;
- Exploration of linkages of the LCC with Canadian partners through the New England Governors/Eastern Canadian Premiers related to the Protect Wildlife Habitat Initiative under the Blue Ribbon Commission on Land Conservation that recommended that agencies implement the charge of the New England Governors by bringing these initiatives together under the North Atlantic Landscape Conservation Cooperative.
